## 500<sup>TH</sup> SCHOOL PURCHASES I-CAR LIVE CURRICULUM

HOFFMAN ESTATES, IL – July 1, 2007 – The I-CAR Education Foundation is proud to announce that Marshall Technical School in Guntersville, Alabama was the 500<sup>th</sup> career and technical school or college to purchase the I-CAR Live curriculum.

Ron Ray, I-CAR Education Foundation Executive Director said, “The Education Foundation is proud that 500 schools are now using the most recognized curriculum in the industry. We look forward to working with Marshall Tech to prepare their students for future success in the industry.”

Tim Gilbert, collision repair instructor at Marshall Technical School, stated, “I am very happy my administrators are committed to seeing that the students at our school have the best opportunity to improve their education. I enjoy working with the students, and I have a desire to see them succeed in life. The I-CAR curriculum is the most up-to-date curriculum in the industry and will help keep my students updated on the latest industry standards. I have been very impressed.”

To celebrate this milestone, Gilbert received an I-CAR Live Training class discount coupon, an I-CAR Online Training redemption code, and various Education Foundation merchandise items.

The I-CAR Live curriculum is a series of individual, modularized training programs, which allows instructors to choose those segments that best fit their career and technical school or college. These programs offer in-depth coverage of both conventional and innovative collision repair technologies and processes. I-CAR Live programs feature knowledge-based training and performance-based testing, with an increased emphasis on hands-on-experience.

For more information on the curriculum or get a personalized quote for your school, please call the I-CAR Education Foundation at 888.722.3787, Ext. 282.
